

# MASTER Robotics

## Integration-Ready Robotics Solutions

- ✓ Refurbished Robots
- ✓ New Fanuc Robots
- ✓ Lifecycle Support

## Why Choose Integration-Ready?

**Robotics purchases with decreased time, cost, and headaches.**

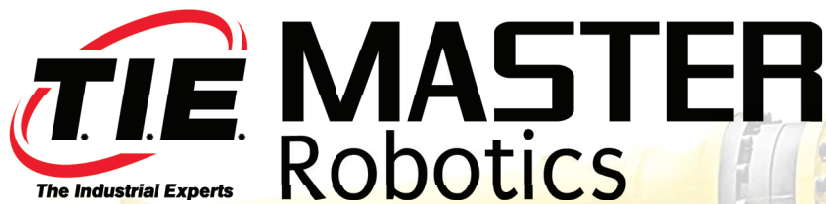

Project timelines seem to get shorter and shorter. Manufacturers need robots that show up ready to work, not ready to be configured. T.I.E. Master Robotics helps you lower your total cost of ownership while deploying automation faster and removing the unforeseen headaches ahead of installation.

**We don't just sell robots.  
We sell automation **solutions.****

## BUY REFURBISHED

**Purchase one of our Refurbished Robots or send us yours.**

Our industry-leading refurbishment process covers every aspect of the arm/controller system to ensure the finished product meets all OEM specifications for reliability and repeatability.

## BUY NEW

**MASTER Robotics is ready to help make your vision a reality — from conception to production.**

We can help with new or existing automation applications and we specialize in helping you define requirements for reach, payload, work envelope, software and hardware, peripheral systems such as welders, turntables and auxiliary axis packages, end-of-arm-tooling, and more.

## LIFECYCLE SUPPORT

**Preventative Maintenance and Tech Support.**

We deliver uptime by supporting our customers before, during, and after the sale with emergency response service, preventative maintenance, system upgrades, recycling and reclamation, and quick help via our technical support hotline.

### THOROUGH SERVICING

Multi-Point Service covers all high-failure components

### ON YOUR SCHEDULE

We work with your schedule to decrease costly downtime

### COST- SAVING

Find the problems before your machine is down

**If you don't schedule time for maintenance, your robots will schedule it for you.  
Avoid costly down-time in the future by fixing simple issues now.**
